MESSAGE FROM OUR PRESIDENT & GENERAL MANAGER

A Great American Summer

By Mare Mazur, President and General Manager, Vegas PBS

July is a time for celebration, reflection and, for many of us, the simple pleasures of summer. As our country approaches its 250th anniversary, this season offers a chance to enjoy programming that looks at the people, stories and milestones that have shaped the American experience, while also making room for the traditions that define summer closer to home.

“July is a time for celebration, reflection and, for many of us, the simple pleasures of summer.”

For me, some of those traditions begin in the kitchen. I love cooking. My barbeque is a real point of pride and grilling — even here in July — is one of my happy places. There is something about summer meals that feel especially satisfying when they are prepared outside and shared with family or friends. That is one of the reasons I enjoy the inspiration we get from our Create channel programming and my personal favorite, **America's Test Kitchen**. With Create it is always easy to try something new or bring a little extra creativity to the table.

This month, our America 250 programming continues with programs that explore the complexity, energy and achievement of the American story. In this issue, you can learn more about this year's special **A Capitol Fourth: 250th Weekend Celebration**. For more than 40 years, this broadcast event has brought viewers front and center for one of the nation's most beloved Independence Day traditions, with memorable performances and a spectacular fireworks display. It airs **Friday, July 3 at 8 p.m.**, with a repeat on **Saturday, July 4 at 10 p.m.**

Later in the month, Samuel L. Jackson hosts **Enslaved: The Lost History of the Transatlantic Slave Trade**, a compelling series that follows the search for six slave ships lost at sea. It is an unflinching look at a painful chapter of history, while also bringing forward stories of endurance, resistance and resilience. It airs **Tuesday, July 21 at 10 p.m. and 11 p.m.**

And on page 8, our Summer of Space feature looks ahead as well. In **Once Upon a Time in Space**, viewers can see how the path from Cold War competition to modern lunar missions helped launch humanity's continuing journey into the cosmos. It begins **Tuesday, July 14 at 9 p.m.**

This month we have a wide variety of programs, from history and documentaries to lifestyle and cooking that make staying in feel just as appealing as going out. Whether you are experimenting with new menus or settling in for an evening of music, history or fireworks, we hope Vegas PBS will be a part of your summer.

Thank you, as always, for your support, and have a wonderful Independence Day.

With appreciation,
Mare

Sunday, July 19 at 10 a.m.

NASA's goal to send astronauts to Mars would require a three-year absence from Earth, during which communication in real time would be impossible due to the immense distance. Meet the psychologists whose job is to keep astronauts mentally stable in outer space, as they are caught between their dream of reaching new frontiers and the basic human need to stay connected to home.

Great Performances at the Met: I Puritani

Sunday, July 26 at 10:30 a.m.

For gorgeous melody, spellbinding coloratura, and virtuoso vocal fireworks, *I Puritani* has few equals. Elvira and Arturo are brought together by love and torn apart by the political rifts of the English Civil War. The opera's depiction of madness — both in individuals and in communities — is extraordinary. The opera suggests that the veneer of sanity can slip away at any moment, that madness can plunge a person into a destructive abyss.

BE AWARE. BE PREPARED.

Nevada experienced its warmest winter on record, and many areas saw very little lasting snow—leaving more dry vegetation on the ground than usual. These hotter, drier conditions increase wildfire risk, making awareness and preparedness more important than ever.

At NV Energy, your safety is our number one priority. That's why we work year-round to strengthen our system, reduce fire risk, and protect the communities where we serve, live, and work.

How We Reduce Risk

To protect communities, we may use one or more of the following safety strategies:

■ Fire Season Settings

When fire danger is elevated, power lines in high-risk areas are switched to more sensitive settings. With these settings in place, the line will automatically shut off if something—such as vegetation or debris—comes into contact with it, reducing the likelihood of an ignition.

■ Public Safety Outage Management (PSOM)

A temporary, proactive shutoff during extreme fire risk to reduce the chance of equipment-related ignitions. These are forecasted in advance and customers will receive advance notification.

■ Emergency De-energization

As a last resort, NV Energy may turn off power if an active wildfire is threatening our equipment. This helps reduce the risk of our equipment contributing to or worsening an existing fire. For public safety, these shutoffs must be taken quickly, so customers may not receive advance notice.

How You Can Prepare

These tools are critical in reducing wildfire risk—and being prepared helps everyone stay safe and informed when outages occur.

- Update your contact information and sign up for alerts in MyAccount
- Create or refresh your household emergency kit
- If someone in your home relies on medical equipment, enroll in our Green Cross program at nvenergy.com/GreenCross
- Find additional outage preparation tips at nvenergy.com/outageprep

Wildfire Awareness Month is a reminder that we all play a part in keeping Nevada safe. Thank you for working with us to protect our communities. To learn more about our wildfire safety efforts, visit nvenergy.com/PowerSafeNV.
