

The Treasure

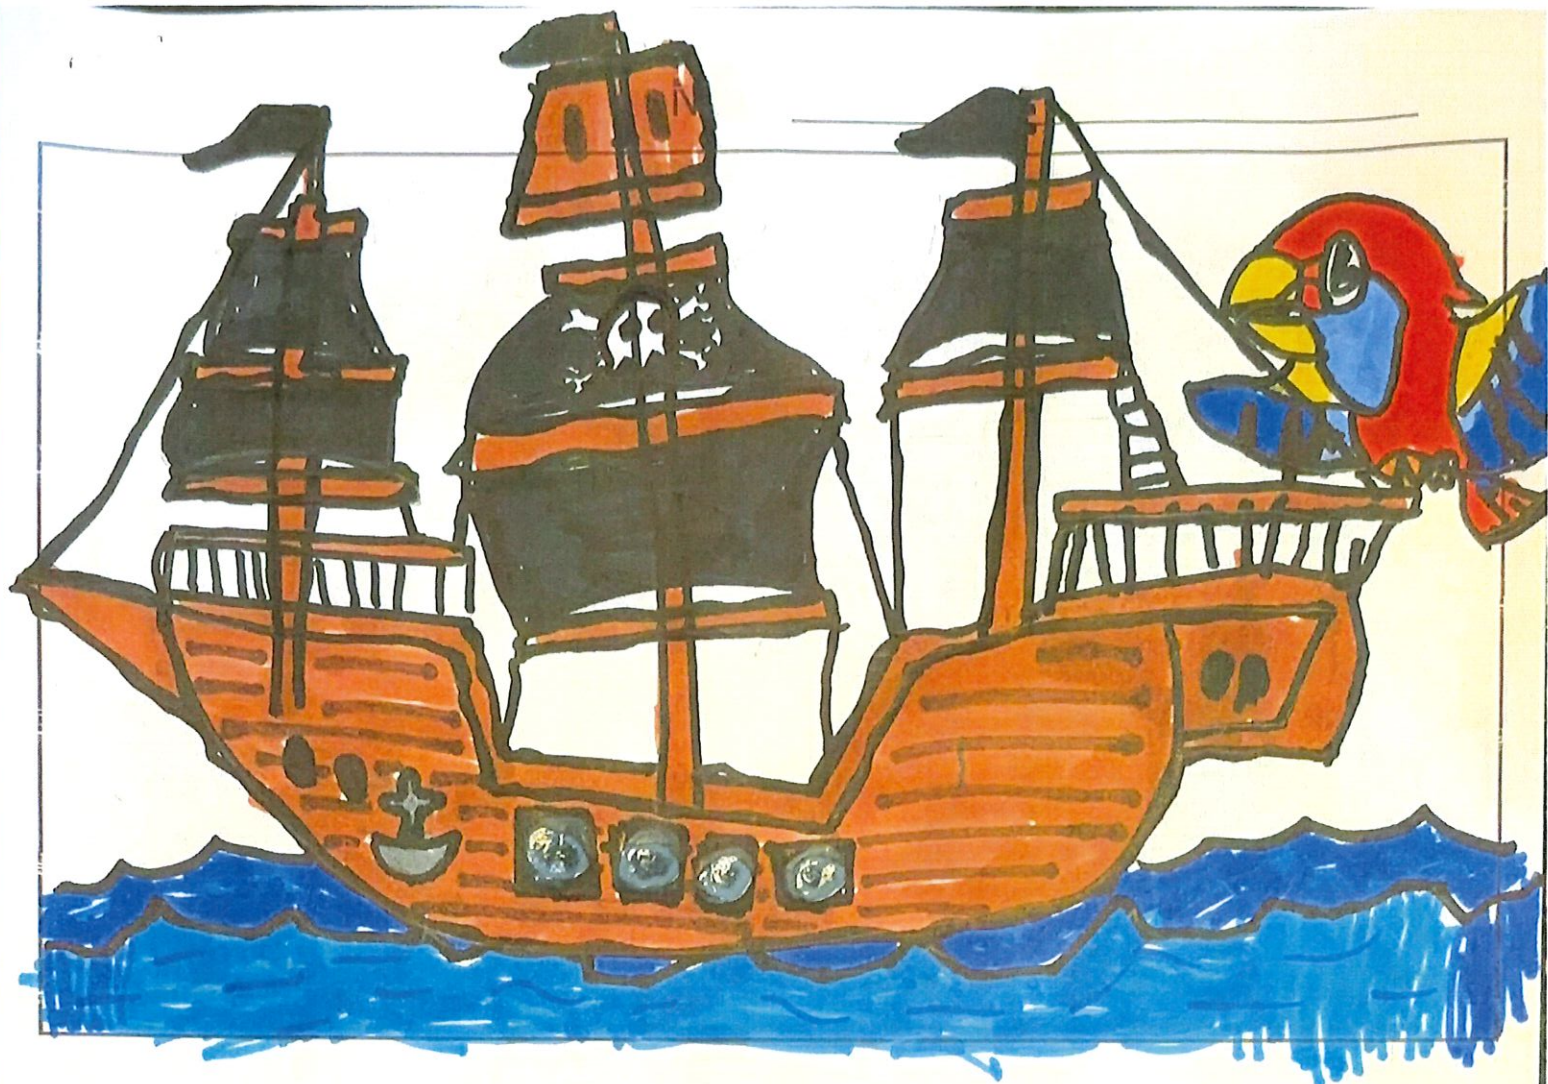

by
JACOB

On an adventure,
Jake was a treasure
hunter with his friend
Alec. ○

They had good
treasure hunting dogs,
Rover and Bingo, and cats
Donald and Grover.

They all sailed

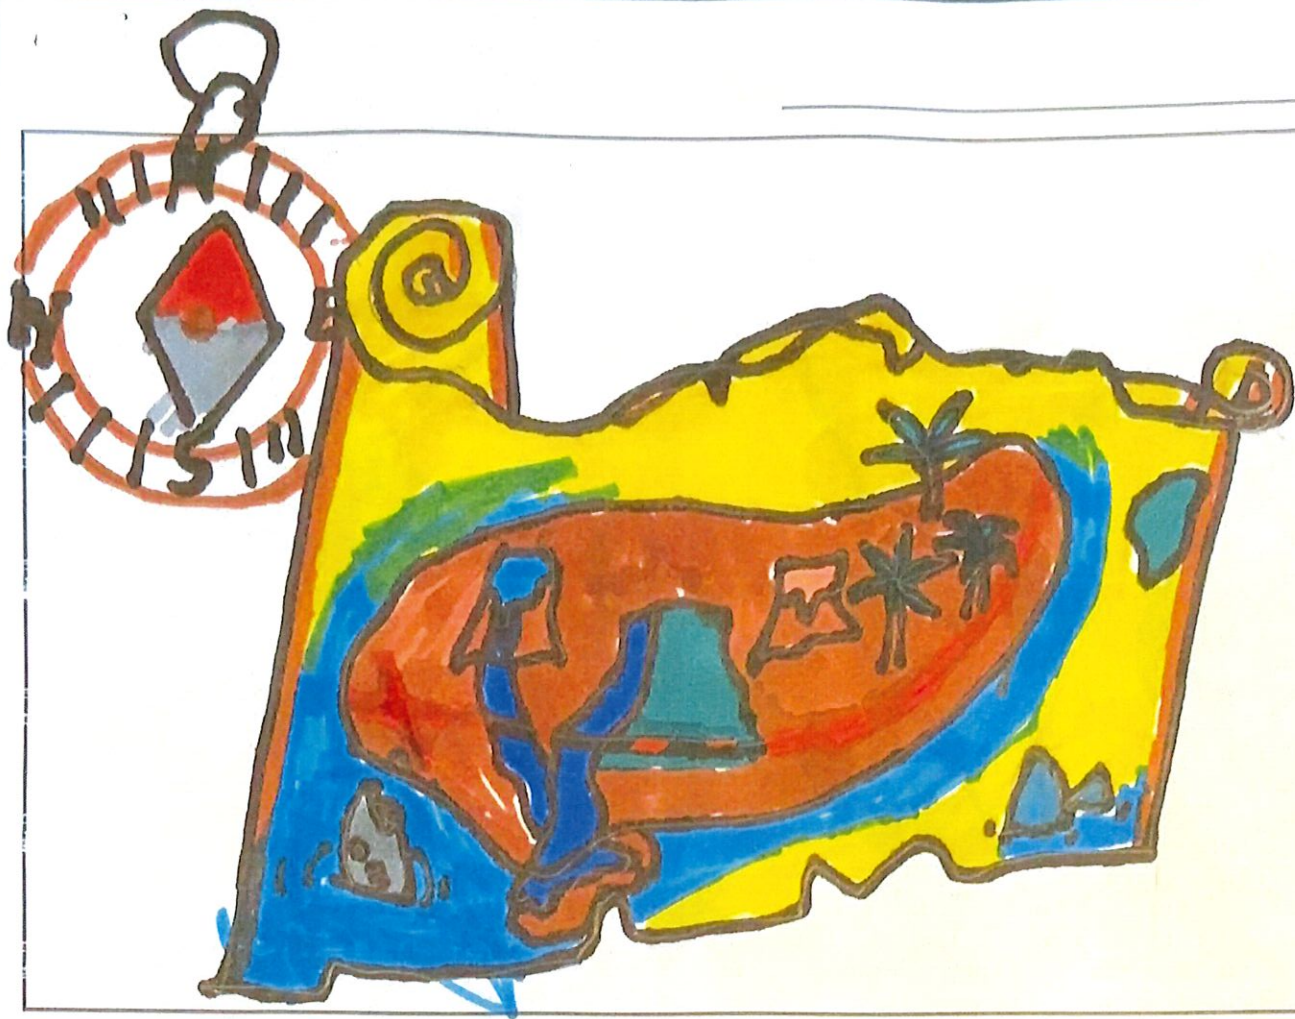

to Pirate Skall

Island on a ship called

the Revenge.

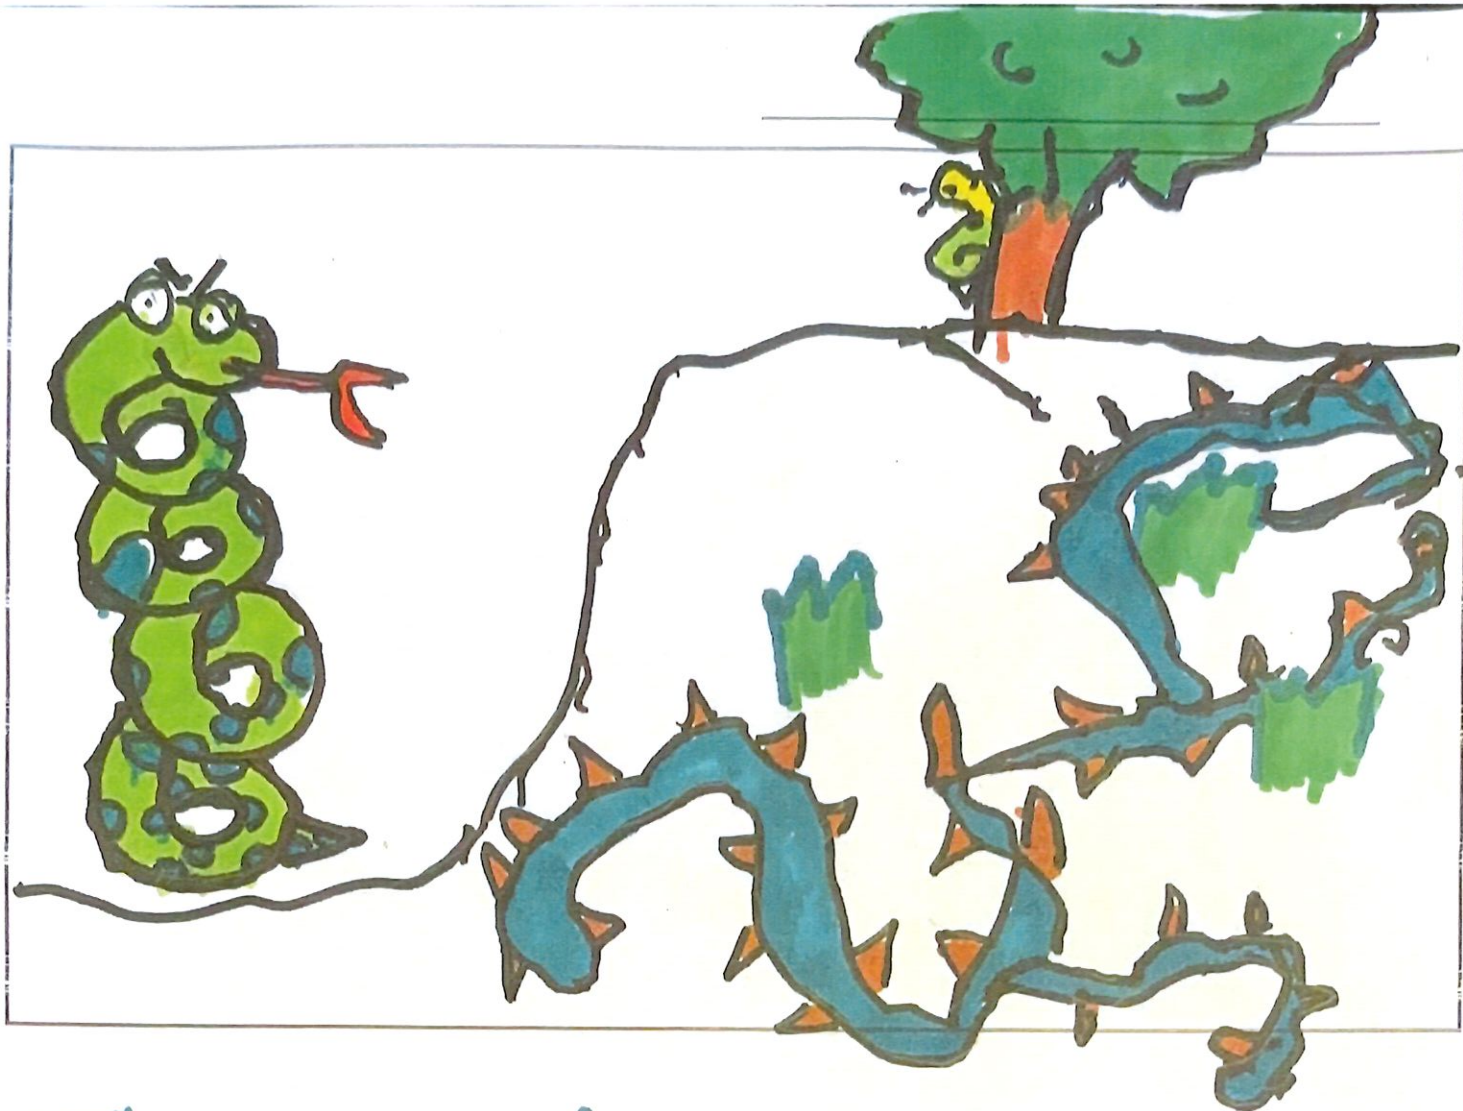

Pirate Redbeard on a
nearby island sent a
message to Pirate Goldbeard
who was already on Pirate Skull island.

Alec found a treasure

map pinned by the wind

to a tree Jake found a compass
attached pointing the way to the bad guy's
⑤ hidden treasure.

The island had snails climbing
up trees. There were lots of
pooby traps along the way

Swinging vines tied them
up. They flew into a spikey
tree and got covered in spikes
they had to shoot out like
porcupines. Then, they fell
into a pit filled with snakes.
They had to fight off the
pythons before they got
squeezed.

They found the treasure
chest buried beneath a
tree.

It was filled with gold
bricks and coins and
another treasure map
revealing the secret location
of another hidden treasure.

Goldbeard used his spy scope to
find Redbeard. They hooked their
spy scopes together as binoculars
to use to find Alec and Jake.
