Montana PBS Reports: IMPACT continues its fourth season and is proud to maintain our commitment to strong news/public affairs reporting for our viewers. This episode gives viewers a rundown on the latest news with the state's largest electric utility: NorthWestern Energy. At the top of the news is the company's proposed merger with Black Hills Corporation. We'll get into the reasons behind the deal, and what this might mean for customers. And, later in the show, we'll dive into the local government review process. As politics at all levels becomes increasingly nationalized, Montanans have a unique opportunity to evaluate their government at the local level. Once a decade, voters can choose to study, and potentially change, the structure of their city or county governments. In the 2024 election, a third of municipalities in Montana made that decision. We'll explore what this process entails, and what it could mean for Montanans.

MT Bring Them Home

MONDAY 11/24 9PM

Also HD: 11/26 2am, 1pm

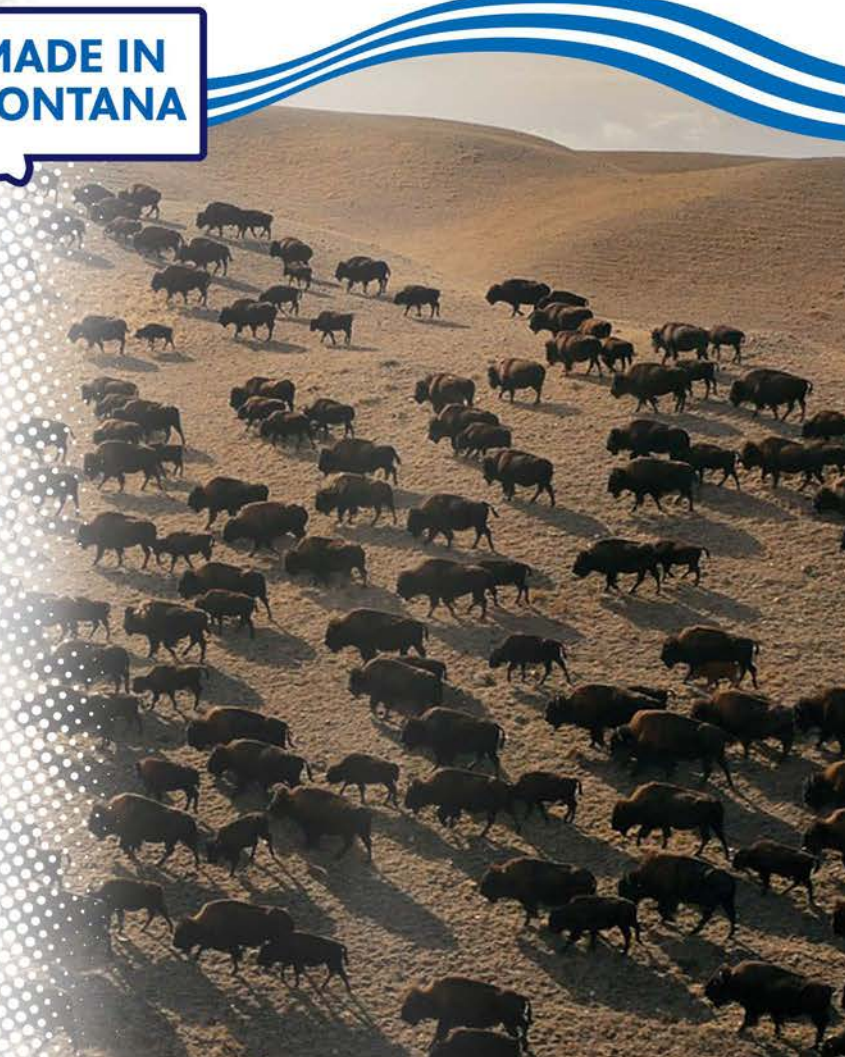

WORLD: 11/26 5pm, 10pm; 11/27 6am

Bring Them Home tells the story of a small group of Blackfoot people and their mission to establish the first wild buffalo herd on their ancestral territory since the species' near-extinction a century ago, an act that would restore the land, re-enliven traditional culture and bring much needed healing to their community.

A hundred and fifty years ago, the Blackfoot people were nearly destroyed when the American Bison, one of the most important links to their identity, culture and spirituality, was slaughtered to near-extinction. Today, a small group of Blackfoot are working to right these historic wrongs by returning wild bison to their lands – an act that would heal people, re-enliven traditional culture and bring economic opportunity to their community. It's a mission that has been threatened at nearly every turn by non-native politicians, cattle ranchers, internal politics and the legacy of colonialism, but one that has persisted nonetheless. BRING THEM HOME charts this struggle from past to present, following the tribal members who have given their lives and hearts to this effort, and is an intimate look at the willpower and resilience it takes to survive and thrive in the face of near-continuous hostility.

The Story of Us: The Women Who Shaped Montana continues with Episode 3, exploring the remarkable lives of three women whose courage and creativity left a lasting imprint on the Treasure State. Ella Knowles Haskell, Montana's first female lawyer and a political trailblazer, fought for women's voices to be heard in the late 1800s. Fannie Sperry Steele, a fearless bronc rider from the Prickly Pear Valley, rose to national fame at a time when women were rarely seen in the rodeo arena, breaking barriers for women in sports and western culture. Nancy Cooper Russell, wife and business partner of artist Charles M. Russell, preserved and promoted his legacy while also shaping Montana's cultural identity through her own resilience and vision. Through powerful storytelling, archival materials, and expert insight, this episode highlights the depth and diversity of Montana women's contributions to law, art, and western heritage.

The Boss & the Band in '79

► Bruce Springsteen & The E Street Band - No Nukes

SATURDAY 11/29 10PM

In 1979, Musicians United for Safe Energy (MUSE) performed a benefit over two nights at Madison Square Garden in New York City. The No Nukes Concerts, organized by Jackson Browne, Graham Nash and Bonnie Raitt, came nine months after the end of Bruce Springsteen's breakout tour in support of *Darkness on the Edge of Town* in 1978, the year when the legend of Springsteen's marathon shows was born.

BRUCE SPRINGSTEEN & THE E STREET BAND – NO NUKES showcases the songs that Springsteen and the E Street Band performed over those two nights — many never seen before — newly transferred and edited from the original No Nukes film footage and restored in HD with remixed and remastered audio.

The 1979 MUSE concerts yielded a concert film, *No Nukes*, released theatrically in 1980, which gave fans their first opportunity to see Springsteen live on screen, even for just a few songs, along with many other artists on the all-star bill. Yet, between the film and a concurrent triple-LP live album, only a smattering of Springsteen's performances from this high-profile event were part of the official record.

For this updated version, director/editor and longtime Springsteen collaborator Thom Zimny recovered and restored the original No Nukes film footage in HD.

Donate your old vehicle to Montana PBS

Door handles that don't work. Broken AC. Buzzing, blown-out speakers. Sure, it still runs, but at some point, that old car becomes a bigger hassle to maintain than it's worth. If you can relate, why not donate that jalopy to Montana PBS and support the local community?

We'll pick it up at no cost to you and we accept all kinds of vehicles, including motorcycles, RVs, boats, and farm equipment. Donations are **tax deductible** and come with a one year membership that includes access to our premium streaming service, **Montana PBS Passport**.

PETS And by Viewers Like You

You hear it at the end of every program: "Made possible by viewers like you." But what about pets? Don't *they* deserve some recognition too? What if they want to flaunt their local, Montana PBS pride?

Well now they can by joining our brand-new **Pets Club**! For a sustaining membership of **\$15 a month**, up to four of your furry or scaly or gilled or hooved friends can become official members of the station and have photos of their adorable selves wearing posh Montana PBS regalia (a bandana) **broadcast on-air** and shared on our social media channels.

Plus they'll get a personalized card and a coupon for discounted treats and toys because *they're just so good yes they are.*

Airtimes in black appear on Montana PBS-HD, airtimes listed in grey [like this] air on Montana PBS-WORLD channel. Check p. 2 for channels in your area.
