

Lesson #14 – Farm Life

**DANIEL TIGER'S
NEIGHBORHOOD**

Caregiver Tips

Farms are where our food—plants and animals—are raised. Farmers plant seeds, water them, care for the soil, and keep plants healthy. They also raise animals and provide for their needs. Many farms have a barn, a large building where animals live and farmers store tools.

Extended Activities

Visit a Farmer's Market regularly. Weekly trips let kids explore fresh produce and encourage adventurous eating. By season's end, you may be surprised at the new foods they'll try. Make it fun with a scavenger hunt—see how many pepper colors you can spot or who can name the most tomato varieties.
