Watch: [Hooray for Apple Trees](#)

Activity

Try Autumn Math With Apple and Pumpkin

Materials:

- Apples (3-4 different varieties and colors)
- Pumpkins (tiny Jack-be-Littles work best)
- Index cards, paper, ruler, pencil, crayons or markers

Directions:

Click the link above and use the sights and smells of autumn to teach basic math concepts such as counting, sorting and graphing.

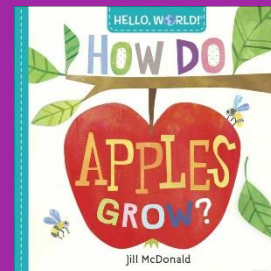

Caregiver Tips

After coloring the bar graph of apples and pumpkins, slice the apples for a tasty, healthy snack. Add peanut butter or cheese for extra flavor.

Book

Read: *Hello World! How Do Apples Grow?*

Author: Jill McDonald

Game

Extended Activities

Apple Stamping - Cut apples in half, dip them in paint, and press them onto paper to create prints. You can use different colors and even add details like stems and leaves with markers or paint.
