

MOUNTAIN LAKE PBS COMMUNITY REPRESENTATION STATEMENT

Mountain Lake PBS is committed to representing the people and experiences of the communities we serve. As a public media organization, we strive to inform, educate, and engage our audience through programming and outreach that reflect the needs and interests of our region.

We are dedicated to fostering a workplace environment where employees, board members, volunteers, and interns feel valued and respected. By actively seeking a broad range of perspectives and experiences in our staff, board of trustees, and advisory boards, we strengthen our ability to serve our audience with meaningful content and engagement opportunities.

Mountain Lake PBS prioritizes the creation and acquisition of programming that reflects the needs and interests of our viewers. Through ongoing community engagement, including feedback sessions and advisory input, we ensure our content remains relevant and responsive.

We regularly assess our progress and update this statement as needed with our governing board to align with the evolving needs of our community.
