8:00pm **Woodstock: Three Days That Defined A Generation: American Experience**

In August 1969, nearly half a million people gathered at a farm in upstate New York to hear music. What happened over the next three days, however, was far more than a concert. It would become a legendary event, one that would define a generation and mark the end of one of the most turbulent decades in modern history. Occurring just weeks after an American set foot on the moon, the Woodstock music festival took place against a backdrop of a nation in conflict over sexual politics, civil rights and the Vietnam War. *Woodstock* turns the lens back at the audience, at the swarming, impromptu city that grew up overnight on a few acres of farmland. What took place in that teeming mass of humanity - the rain-soaked, starving, tripping, half-a-million strong throng of young people - was nothing less than a miracle of teamwork, a manifestation of the "peace and love" the festival had touted and a validation of the counter-culture's promise to the world. Next Air: August 15 at 1:00am.

10:30pm **Rick Steves Art of Europe: Beauty Through The Ages**

Rick Steves explores the wonder of European art from the High Middle Ages to the modern era with visits to the studios of a painter and a sculptor through a selection of Rick's favorite "art bites." The half-hour membership special ventures from soaring Gothic cathedrals to the fantastically surreal world of Bosch, guiding viewers through sensuous tapestries and into the revolutionary Renaissance, known for its realism and humanism. The journey then moves on to Rodin's "Thinker," Monet's "Water Lilies," Klimt's "Kiss," and Chagall's surreal lovers, all from the dawn of our modern age.
