

EDUCREATE WORKSHOP SERIES

Create & Connect: Accessible Digital Storytelling for Classrooms

For K-12 Educators

Storytelling is a powerful teaching tool that works for many types of learners while also fostering academic and personal growth. Great for all subject areas, storytelling taps into students' creativity and creates meaningful connections while also engaging students in active learning that improves comprehension and retention. Storytelling fits seamlessly into existing project-based, hands-on and experiential learning - when integrated into curriculum, storytelling can be used to introduce a new topic, illustrate a difficult concept, bring a dry subject to life, as an assessment tool, and more!

Creating engaging podcasts and great videos with your students is easier than you think! Join us for this hands-on workshop to learn how to use accessible multimedia tools to supplement curriculum and align digital storytelling in your classroom through podcasting and videomaking.

WEDNESDAY

October 14, 2026

TIME

8:00am - 12:30pm

LOCATION

WMCAT, Grand Rapids

COST

Free

REGISTER TODAY

wgvu.org/educrate

**REGISTRATION
CLOSES**

October 5, 2026

Join us for a day of hands-on learning as we explore:

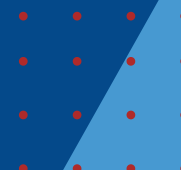

- Using accessible multimedia tools.
- How to supplement and align digital storytelling with your curriculum.
- Free and low-cost digital tools for project-based, hands-on and experiential learning in the classroom.
- Empowering students to tell local stories in an accessible and inclusive way.
- Media trends, their impact, and how to differentiate for student learning outcomes.

Leave feeling empowered, refreshed and inspired!

- Connect with organizations for local resources and classroom programs.
- Receive access to ready-to-use resources you'll be excited to use with students.
- SCECH credits available.

We'll keep you fueled for learning.

- Enjoy coffee and a selection of snacks throughout the day.
- Breakfast will be provided.
